(L-R) Dr. Elizabeth George, President of MACWell, and committee members Eric Holtzman, Kelly Brown, and Theresa Gourley accept a grant for \$20,000 from Barbara Constable, VP Community Relations at Summit Health. The presentation was made May 28, 2013 outside the Fendrick Library. The money is given to Mercersburg Area Council for Wellness to help hire a part time Grant and Project Manager.

"I think it's exciting," said Constable. "MACWell has laid the groundwork so nicely. It has become an umbrella organization that needs somebody at the top to keep people motivated – to coach and mentor the leads for each task force."

Dr. George added, "The Grant and Project Manager will oversee and coordinate, not replace the volunteer nature of the organization." The MACWell Committee hopes to fill the position by July 15.
